Amalgamated copper stock seems to have been the downfall of H. J. Fleishman, the Los Angeles bank cashier who went wrong. The Los Angeles Express says he purchased stock first at \$80, and at every fall in price he loaded up more in the conviction that bottom prices had been reached. Each purchase made by him was large, requiring more money. Fleishman is stated to have made his last purchase Friday, when it is said he ordered 5,000 shares of Amalgamated to be bought. The investment represented \$5,000 cash with a protection of \$10,000 for four points. The stock was purchased at 70. Saturday morning it had slumped to 60 and Fleishman was out \$25,000. He realized the jig was up and fled. His speculations are believed to have covered a period of several weeks.

The Copper Queen Store.

The Jewelry Department is not so well known as it should be. In the southwest corner of the second floor it is somewhat off the highway of the usual store traffic—up the stairs and to the counter you usually buy at. Holiday time will be a good time to become better acquainted with it. Many customers, walking around aimlessly with a despairing, wonder-what-to-buy-look, have stopped at the Jewelry counter and before leaving they found something. After the Holidays, it will be well to remember too that more and better kinds of all sorts of jewelry are here than you'd find if you should travel several days. A hint—with some prices:
